

Points from the Principal

A Quick Note...

When using the pick-up/drop-off lane, please remember the following:

- *Be courteous and watch out for walkers.*
- *Pull all the way over to the curb while waiting on a residential street.*
- *Do not block driveways or intersections while waiting in your car.*

Safety is our priority! I know how busy schedules can become, but am hopeful you will help us all maintain a safe community by exercising your patience during pick-up and drop-off.

A Look Back...

I hope you had a chance to join us for Parent Orientation on August 28th or August 29th. Although the first day of school is the point teachers and students begin building positive relationships, we look at Orientation as the time teachers and parents formally begin their own partnerships for the sake of the children's learning. Your active involvement within the learning process is critical to your child's success. Thank you for everything you've done to help our school community have a successful start to the school year!

A Look Forward...

Mark your calendar for our Community Engagement Meeting on September 11th at 6:00 PM. District 203 is seeking community input regarding facilities options. Those in attendance will view a video and PowerPoint presentation, will have a chance to discuss details at "stations" set up around the issues identified at Naperville Central High School, Mill Street Elementary, the Early Childhood program and Naperville North High School, and will be invited to give formal input via a Touch the Future feedback form.

For detailed information, such as additional meeting and tour dates, click on the Touch the Future button on the District 203 website – www.naperville203.org.

A Final Thought...

Through community surveys, we have heard the interest to conduct parent-teacher conferences earlier in the school year in order to provide parents earlier feedback about their child's progress. This school year, our Fall Parent Teacher Conferences will be held:

Thursday, October 18th

and

Friday, October 19th

This is a change from the November conferences we used to hold. Please plan accordingly!

Fondly,

Chuck Freundt
